3 years 8 months. 60cm. A large, medium strong, quite well proportioned bitch, eyes should be darker, she stands a little wide in front, elbows are a little open. She should be stronger in the skull and fore face, good withers, firm straight back, the croup should be a little longer and not quite as steep, the upperarm is a good length but should be better angled. Good forechest development, very good hind angulation. Stepping correct behind, the hocks should be firmer, from the front the elbows are quite open. She shows signs of colour paling i.e. no black to the tip of the tail. During movement she shows very good drive and reach through a firm back. GRADING: Very Good

3.5 years 59cm. Large, medium strong, slightly deep, well coloured, strongly pigmented bitch, good breadth of the skull, eyes should be darker and this spoils the expression. Good neck, good withers, firm back, slightly short just slightly steep croup, very good fore and hind angulation. Well developed fore and slightly short underchest. Slight roman nose, pasterns should be firmer, stands correct when viewed from the front. Stepping from the rear the hocks should be firmer, elbows should be tighter, during movement she has a tendency to fall slightly on the forehand, and this gives her a slightly overbuilt appearance. GRADING: Excellent

4.5 months. Medium size medium strong, black and red dog, good head and expression, very good overline, very good forehead angulation, the hind angulation is too deep and the hocks are a bit long. The pasterns should be firmer. Stepping away the hocks are very loose. During movement the drive even accounting for puppy development should be a little more convincing, hopefully the hindquarter particularly the hocks will firm up as he matures. In all other respects a nice puppy.

11 months. Large, black and brown medium strong boned dog whose eyes should be darker. The left ear is very soft, slight roman nose, level wither, firm straight back, slightly short steep croup, the upperarm should be a little longer and better laid, for his age he should have a little more forechest development but this may come in time, good underchest development, good hind angulation, steps correct when viewed from the front. During movement I would like to see the drive a little more convincing, the fore reach is restricted. The ear is a problem. #1 GRADING: Promising
