These two classes were confirmation of the high standards you are achieving in Australia. They were a delight to see

BROWN NOSE 13 ENT

225 PARSON'S CH UJAMAA ROOI ADAERI

My idea of a superb liver is the same as the Palomino horses we used to breed - ie The colour of a newly minted Gold Coin. This winner also had the sooty coloured mascara & nose pigment which ensures good depth of amber eye colour. We have only had one such - mandambos brother Malangundi (un shown - a bit big!)

BRACE, 14 ENT

48 EDGAR'S pair CH. MACUMAZAHN PLAYDIT TO THE BEAT with
CH. MACUMAZAHN HIGH VOLTAGE - They looked the
part, moved in perfect rhythm & style. Pure class
lovely!

What do I say after this superb turnout - Thank
you for the opportunity to see your dogs - as I
said at the time "you have cracked it!"

Just as in England, you have a weakness
creeping in which is important to rectify.

A well laid shoulder must have a good return
of upper arm of apparently equal length.
The chest muscles are very important and cannot
be ignored. And the quarters - The croup must
be long and only with a slight slope of 30° and
over angulation behind is a real problem the
wording on the earlier standard said 'medium
turn of stile and this matters in twisting and
turning. I look for a medium/good turn of stile.

I am sorry I took so long we were not able
to show the World Congress From Racehorses to
Ridgebacks. Thank you to my marvellous stewards
and the care taken in rather hot weather.

Finally what have I enjoyed most -

Australia and Australians and the care you take
of your amazing country
And the Veteran parade - they were a total joy
and may even have reached the stage of not
arguing - well not so much!

With affection

Chr.
