

Judges Report - 14 Nov 93

BULL TERRIERS

Class 1 - 4 entries

**1. Carinbush Knls CARINBUSH
WESTOTHEIDLO**

4 1/2 mths young animal, with an attractive head, with a lovely arc and finish, excellent eye, at present rather fine in muzzle and his canines are set in, body wise he was more shapely than the others in this class, good front and topline. Moved well.

**2. Cross' s MASCELERO
BOMBADIL**

Although a month older than first is still very babyish. Good length of head with well placed ears, good eye, correct bite. Attractive length of neck and good upper arm, at present too long in the back, but I'm sure

ACT Bull Terrier Club

maturity will correct this. Good hindquarters, moved nicely.

3. McDonnell's MASCELERO MR MICAWBER

Brindle dog, litter mate to second. Another good long head, big ears which he has to grow into. Good front, good strong bone. Feet a little untidy. At present tubular in shape. Good hindquarters. Will undoubtedly improve with age. It was very interesting judging this class as we never show anything this young in the UK. A class with oodles of promise.

Class 2 - 2 entries.

Kocass's BARGUSBY BLUE BARON

White dog with a strong head and good breadth of muzzle, consequently room for his canines, correct bite. Attractive straight front and good topline. Sparkling coat. Moved nicely.

2. Fisher's BARGUSBY DARK MAN

Brindle litter brother of first. Attractive young puppy who looked most promising. Unhappily I was unable to handle him. Hope he grows out of his ring shyness.

Class 3 - 4 entries

1. Hansen's BUFFINGTON KICSI KASPER

Striking white dog with black ears. Beautiful profile, excellent eye placement, good width of muzzle, big strong teeth well in place, correct bite. Lovely neck, broad chest, good straight front, good depth of body, good cut up. Terrific bone. Good topline, lovely strong angulated hindquarters. A beautiful burly masculine dog. What more can I say except to top it all he moved well, with drive. I loved him. BEST PUPPY, CHALLENGE CERTIFICATE, BEST OF BREED.

2. Hardy's GYTARLIA MIDNIGHT MAJOR

Attractive headed dog with enough arc and finish, a little kind in eye. Straight front, nice

topline, well roached, good hindquarters. His movement was better than the other two contenders in this class. A smaller model than the first in this class, nevertheless a smart dog.

3. Dougan's VANGELIS HYPERCOLOUR

White with red ear markings. This dog has a beautiful profile, but is fine in foreface, his mouth is not quite correct, but his canines are in the right place. His front is not his fortune, a good topline, hindquarters are adequate, but his movement was rather uncoordinated.

Class 4 - 9 entries

1. Humphrey's SHIRVIN GRAND DEAL

Mismarked brindle dog, good head shape, good profile, correct bite. Lovely neck and a good short back, untidy body shape, he could lose some weight to advantage. His movement is parallel coming, but tends to converge going away. I should like to have seen his other profile, but his handler kept turning him away, I gave up in the end.

2. Dingeman's BRAKAN RED CORVETTE

Red dog, with good length of head. Good neck and body shape. Moved adequately. Attractive type of dog.

3. Brown's BRUGOWN MIDDAY MAN

Black brindle. Nice head shape, correct bite. Good neck, straight front, good body shape and well angulated hindquarters. Moved correctly. There was much to commend all the dogs in this class and I found it quite difficult.

Class 5 - 3 entries

1. Healand's SHIRVIN RICK O SHEA

Brindle/white, nicely marked. Has a good length of head, possibly a little too elegant. Bite level. Straight front with a good forechest. Has a good topline, but no cut-up, obviously enjoys his rations too much. His movement was good.

2. Walker's SOVRANFIRE SERIOUS

Brindle and white. A good length of head with a good profile and strength of muzzle, badly undershot and a too light eye. Good forechest and straight front. Excellent bone. Movement adequate. Charming temperament.

Class 10 - 7 entries

1. Isaac's NICHMARI UNION JACK

Large brindle and white, nice length of head, correct bite, good ear placement, eye a shade too light. Good neck and well laid shoulder, good forechest. Good topline, short back. Correct tail carriage. Good bend of stifle, moved nicely. Handsome heavy weight dog. RESERVE BEST DOG

2. Vassello's EMMANNE TUL GUNNA ACE

White dog with a lovely head and paralyzing expression. Unfortunately rather upright in shoulder, so no forechest, surprisingly short back, adequate hind angulation. Movement not too clever.

3. Welch's CH DEWILLA IMA GUNSLINGER

Brindle, nicely made dog, who has not enough head, is not strong enough under the eyes and has no finish. He moved adequately, but could do with a stronger second thigh.

Class 11 - 5 entries

1. Laing/Dougan's VANGELIS NOBULLS HIT

White masculine dog just the type I like. Attractive arc to head, good eye placement, good finish, only problem too narrow in muzzle, his lower canine is in and forward on one side. Beautiful neck, good forechest, nice topline. Straight front, good bone, enough bend of stifle, movement adequate.

2. Barham's CH MAHBULL MAESTRO THE GAME

Brindle and white. Fantastic arc to his head, ears disappearing off the back of his head, far too light in the eye. Strongly made dog who moved with drive and was all Bull Terrier.

3. Simpson/Hirst's CH MIDLINE EYE TREASON AT ARICON

White dog, nicely made with substance, but not enough head, he has a good bite with good breadth of muzzle, but no finish or arc. I do consider the Bull Terrier a head breed.

Class 1A - 5 entries

1. Bush's MASCELERO FLAMING STAR

Smart little red and white, with her ears right up. Correct mouth. Tubular in shape and at present also long in back. placed over the 2nd because of her correct mouth.

2. Carinbush Kni's

CARINBUSH WESTERN ROSE

Pretty white bitch, who at 5 months is already badly undershot and I really cannot see it improving. Pity.

3. Fisher's BARGUSBY BLUE FIRE

Brindle bitch with a long fine head, straight front - cannot translate what I said on tape - time is on her side.

Class 2A - 3 entries

1. Healand's SHIRVIN TIME TO DREAM

Attractive white bitch with a good head, a nice feminine profile, good width of muzzle, good eye placement. Correct bite. Good neck. Nicely laid shoulder, good bone, straight front, correct topline, well bent stifles, good second thigh. Moved well enough for her age. BEST MINOR PUPPY

2. Ashman's TEWHANAU WESTERN CLASSIC

Brindle with not quite enough finish to her head, but of good length, fine in muzzle with ingrowing canines. Straight front, which needs to tighten, shoulders upright and topline not so good.

Class 3A - 9 entries

1. Healand's SHIRVIN TOTAL LOVE

Brindle & white, nicely marked. Good length bitch head, correct bite, good neck, straight front. Moved nicely. Litter sister to previous class winner.

2. Capasso's DIMECA BIRTHDAY SURPRISE

Had thought this my class winner, but her mouth has ingrowing canines, nice neck, good forechest, topline not clever, but long, hindquarters adequate.

3. Warrick's BRILLYWAZZ ACE PURSUIT

Black brindle & white, lovely profile, mouth incorrect, those wretched canines again. Straight front, body shape untidy, not helped by her markings, which throw the eye, adequate hindquarters.

Class 4A - 8 entries

1. Brown's BARGUSBY STARE WAYS

The female star of the show. White headed colored, a dark chocolatey brindle, lovely profile; good mouth, good eye

placement, well set ears. Good neck and forechest, correct body shape, good topline, good cut-up, excellent hindquarters, well bent stifles. Good parallel movement both ways, the only think I didn't like was her tail carriage, which at tie was too high. **BEST BITCH, BEST OPPOSITE SEX, CHALLENGE CERTIFICATE**

2. Carinbush Kni's KIRAKARLA BRINDABELLA

Black brindle who is possibly solid for colour. Lovely head, good profile, good eye. Elegant neck, good front. Movement a little close behind. She also was too proud of her tail. **RESERVE BEST BITCH**

3. Wright's PACMARTEE CATCH THE DAWN

Attractive white, lovely profile to her head, again a good neck. Her under cut has gone, no doubt due to family commitments, and her topline is now a little flat, but she is nevertheless a very feminine and elegant looking bitch.

Class 5A - 3 entries

1. Fisher's BARGUSBY BLUE BONNET

20 months white bitch, attractive feminine head, correct bite, well placed eye and super ear placement. Elegant neck and good shoulders, good topline. Good deep body, adequate angulation. **BEST INTERMEDIATE.**

2. Gatt's CH DIMECA EVENING STAR

Large bitch, a good head with not quite the finish under the eye, substantial and well made, good topline and hindquarters, has obviously had pups as her underline has gone.

3. Burgoine's BRACKLYN BOWLACE

White bitch, attractive head, corrective bite. Moves nicely but a little close behind.

Class 10A - 6 entries

1. Dougan's VANGELIS WESTERN ACCENT

Most attractive big bitch, deep full bodied, lovely neck and shoulder, good hindquarters. Moved well. Took my eye when she came into the ring.

2. Isaac/Sylvaney-Bourke NICHMARI BILLY JO

Very feminine bitch, good head with finish but a little fine in muzzle, pincer bite. Nice neck and topline. Good bone. Moved well.

3. Turner's BRILLYWAZZ BLACK BEAM

Showy black brindle. Very pretty head, but mouth incorrect due to ingrowing canines. Good neck. Short back, straight front, good body shape. Movement not that good in comparison with the other two.

Class 11A - 5 entries

1. Brown's BRUGOWN LADY ROSE

White. Terrific eye, feminine head. Good neck, nicely laid shoulder, deep body, good topline. Good strong bone, neat feet. Moved with drive. Can use her ears when she feels like it and they are placed correctly.

2. Maynard/Cook's NZ CH BOLTEC PRIVATE DANCER

Brindle, attractive looking but a little long in back. (Then I had trouble with my recorder, I didn't speak closely enough, so cannot hear what I said, just the odd word and it would be unfair to use them as basis for a critique. I do apologise.)

3. Melrose's KEILIN SWEET ELITE

White bitch with an attractive looking head, mouth very incorrect. Stunning eye and well placed ears. Straight front, deep body, topline too roached. Moved well both ways.

+++++

BULL TERRIERS (MINIATURE)

Class 2

1. Officer's SCHARDALE MASTER ANDREW

Black brindle. Strong head, good bite, good eye, good neck, good bone, front not his fortune, good hindquarters, a little long in the back. Movement adequate. **CHALLENGE DOG**

Class 10

1. Schafer's SCHARDALE MR CURL AMO

Black brindle, 10 1/2 month puppy. Head lacks fill under the eye, pincer bite. Good bone, in fact rather over done. A good size. Correct topline and good cut up. Movement rather close behind. **RESERVE CHALLENGE DOG**

Class 1A

1. Schafer's SCHARDALE MAKE A WISH

Correct sized white bitch, long head, correct bite, good eye placement, good neck but upper arm too short, consequently her shoulder is too upright which in turn makes her body look long. Nice hindquarters and she moved adequately.

Class 3A

1. Schafer's SCHARDALE MS BLACKPEPPER

Attractive black brindle bitch with a pretty bitch head, a good eye, correct bite. Good neck, again a steep upper arm, good width to her front, but not enough forechest. Good hindquarters and she moved nicely.

Class 4A

1. Burgoine's BODALLA LIL VISION

Brindle bitch with a lovely profile and a good eye, horrible mouth. Good neck, front adequate, tends to toe in when moving towards one. Topline dips, hindquarters good, but when moving away movement converges.

5

Class 10A

1. Burgoine's BODALLA LIL ANYA

4 yo brindle bitch, with a good length of head, correct bite, good eye, well placed ears. Good body shape. Good condition. Moved well. Attractive bitch.
RESERVE CHALLENGE BITCH

Class 11A

1. Schafer's SCHARDALE MISS ICEPEPPER

White bitch, pleasant head, good width under the eye, could do with a little more fill, good eye placement, correct mouth. Good bone. Correct front and good topline. Good hindquarters. Moved well. **CHALLENGE BITCH.
BEST OF BREED.**
