

A.C.T. BULL TERRIER CLUB
OPEN SHOW 26.6.1992
JUDGE: JOHN JAMIESON

MINOR DOG

1st. Gillette's TEACERESS BONFIRE. White dog, very good strong head and expression and nice bone. Would like to see him move a little better on both front and rear. He could do with a little more development in hindquarters. Quite a typey dog.

2nd. Krawczyk's TEACERESS SKYVIEW. A brindle and a little longer in back and lighter in bone than first. Some further ring experience as he matures will allow his movement to be better assessed.

PUPPY DOG

1st. Gatt's DIMECA ULTIMATE WARRIOR. A big white dog with a good strong head and big bone. A nice top line and moves quite well in both front and rear. I would like to see him move a little straighter in front. An easy winner in this class.

2nd. Miller's ARNALDO WHITE HOPE. A white dog with quite good bone and good coat. He lost out to first in head and shoulder.

JUNIOR DOG

1st. Vella's DIMECA ROLLING THUNDER. Once again a big dog and was not surprised to find he was a brother of the winner of the previous class. Also white and has big bone a good strong head with quite a good front. His quarters are quite well developed. He is quite a good dog and could be better still with a fraction more fill under the eye.

INTERMEDIATE DOG

1st. Hegarty's ASTROBULL BLACK EQUINOX. A very good big powerful brindle dog. He has a very good topline, a good shoulder and good length of back. He moves quite well on the rear though could be a little straighter in front. A nice dog and an easy winner in this class.

2nd. Bush's CH TEACERESS MR MCGOO. He is a white dog, stands reasonably square on the front. He lacked the head of the winner and I would like to see him with an improvement in shoulder and a little shorter in back. He moved reasonably well in the rear.

AUSTRALIAN BRED DOG

1st. Freeman's UALA DRUMBEAT. A very good white dog, very nice outline, very good topline and shows very well. He has a strong head though he could have slightly more fill under the eye and could have a little more length. Very good bone and nice feet. He moves quite well and won the class with a little to spare. A very worthy reserve dog.

2nd. ~~Mc~~ **Donnell** and Plane's CH ZIPHERES ZACHERY. A nice brindle, giving a little away in age to the winner. He had good profile in head and a good eye, though I would like to see him with a little more length and fill. I would also like to see him with an improvement in front and rear movement.

OPEN DOG

1st. Splatt's NICHMARI UNION JACK. A really first class brindle dog. A very, very good, well filled head. A big dog with a very good topline, he moved well with good power on the rear. I would like to see him move a little straighter in front. A class dog, won the challenge with some in hand from a really first class line up of dogs and won runner up with the tremendous virtue in head.

PUPPY BITCH

1st. Gatt's DIMECA EVENING STAR. A really nice typey white bitch. She has a very good head, good eye and expression, a good shoulder and topline. She has well developed quarters and moved quite well on both front and rear. Won a very close class with an edge in the head, and topline.

2nd. Carey's ARNALDO TWINKIE STAR. Another very nice white bitch again with good type. A good head and body. She moved quite well on both front and rear. A close class.

JUNIOR BITCH

1st. Tollhurst and Hegarty's ASTROBUL JUPITER ICE. A white bitch who is hard to fault. She has a very good head good eye and expression, full of type, good topline and moves very well on both front and rear. Won a really very very close tussle with an edge in length of head, bone and development of quarters.

2nd. Tollhurst's ASTROBULL VENUS RISING. Another very good white bitch. Very typey, with again a good head. She has quite good hindquarters and moved well both front and rear and along with third had to contend with hot company in this class. She won over third with a slight edge in head and construction.

3rd. Platt's ESCADERO WESTERN GYPSY. Another nice one, brindle with again a good head outline and type. Moved adequately and lost a fraction in type and construction to second.

A class of three very very good bitches, each a worthy winner and a credit to their breeders.

INTERMEDIATE BITCH

1st. Tollhurst's ASTROBULL MOONSTONE. A white bitch with a good head and good bone. She showed well and had reasonable topline and quarters. I would like to see her with a little more length of head a slight improvement in eye and she could move a little better in both front and rear.

LIMIT BITCH

1st. Cross's YABTREE MAUDE. A typey white bitch, shows well with a nice topline. She moves reasonably well on front and a little close on the rear. She has good feet and good bone for her size.

AUSTRALIAN BRED BITCH

1st. Isaacs's CH NICMARI SAMMY JO. A lovely white bitch, all type. Well balanced, nice shoulder, straight front, a very good head a excellent eye and good expression. Being super critical she could have a fraction more fill under the eye. She moved well both ways, a super show girl and a very easy winner of this class. She won the bitch challenge with ease and was very pleased to have a bitch of this quality as my best in show winner.

2nd. Bush's CH MASCELERO AMYLOSE. A brindle, winning over third with an edge in front, shoulder construction, shorter back and topline. A goodish head though I would like to see a little more fill under the eye. Moved reasonably well.

3rd. McDonnell's MASCELERO MISS PRISSY. A red bitch, once again not too much between second and third. Moved adequately. I would like to see her a little shorter in back and moving a little straighter.

4th. Koeck's KCULYDAL DOUBLED DOUBT. A white with a square front. I would like to see her sounder in all round construction. An improvement in head would assist with her chances.

OPEN BITCH

1st. Howes's NICMARI JUANITA. A good typey brindle bitch. She showed well, a good head though it could have a little more length. She has a nice short back and moved quite well both ways. A well balanced bitch and a worthy winner in a goodish class.

2nd. Tollhurst's CH ASTROBULL SOLAR ECLIPSE. Quite a nice white bitch, with good length of head. I would like to see her head with a little more fill under the eye. A very showey bitch losing out to first a little in head and length of back.

3rd. Freeman's TAMBO CALYPSO KATE. Brindle, not quite up to pushing first and second, adequate front. Moved reasonably well, a little close on the rear. I would like to see her with a improvement in shoulder.

4th. Bush's CH MASCELERO DANCING GIRL. White with a red eye patch. She has adequate bone and would like to see her with more angulation of shoulder and shorter in back.

I would like to express my appreciation in being asked to judge on the day. The standard of the two challenge line-ups would be representative of the quality in most of the specialities in this Country. I apologise for the delay in this report, the tape that I made had a background noise that made it almost impossible to copy and it is with the assistance of the video that these comments have been generated, so if you feel that your dog has been hard done by in the comments, you may be able to take some comfort with this in mind.
