

## **ACT Bull Terrier and Bull Terrier Miniature Show, 11 November 2017 - PM**

Judge: Mrs Margaret Burgoine (NSW)

### **Critiques**

#### **BULL TERRIER MINIATURE**

##### *Puppy dog*

1 - A typey, sound, balanced puppy dog with lots going for it. Good quarters and adequate bone. A nice little package but would prefer the tail to be carried lower.

##### *Junior dog*

3 - 15mths, adequate head, good expression with correct small eye, slightly upright in shoulder and straight in rear, would prefer slightly shorter in body.

##### *Intermediate dog*

6 - two year old dog, a very good head but lacking in underjaw, body needs more substance, prefer a wider ribcage, tail carriage is incorrect.

7 – adequate head, good forechest and shoulders, would prefer a tad more bone and substance, showed very well, good movement.

##### *Open dog*

8 – Adequate head and movement, slightly upright in shoulder, would prefer more substance and bone, this is a terrier type, mouth is OK.

DCC – 7, RDCC – 1

##### *Baby puppy bitch*

10 – reverse scissor bite, would prefer more substance but still young, time will tell with this one.

##### *Minor puppy bitch*

11 – very feminine looking, adequate bone, good mouth, a very promising bitch.  
(first)

12 – brindle bitch that needs maturity, both in body and behaviour. Looks whippety at present, needing more width of head and substance through the body. (second)

##### *Puppy bitch*

13 – 11.5 mths, nicely proportioned bitch, with an adequate head and good forechest, a well put together puppy.

*Junior bitch*

15 – a well-trained bitch but lacking breadth of head and is browy, needs more bone, would prefer smaller ears and a stronger rear drive, feet are east-west. (Second)

16 – Another well trained bitch also lacking breadth of head and looking browy, but overall a better shape and with better bone than previous bitch. (First)

*Australian Bred bitch*

18 – A rather plain head with a broken outline, adequate bone and fair movement but lacking forechest and down on pasterns.

*Open bitch*

19 – A fair sized bitch with good forequarters and reasonable forechest, would prefer more bone, rear movement is a little close, ticked coat is undesirable. (First)

20 – This bitch is straight in shoulder with a sloping topline, the left foreleg turns out, rear structure was reasonable. (Second)

BCC – 11, RBCC – 13

BOB – 7, ruBOB – 1.

## **ACT Bull Terrier and Bull Terrier Miniature Show, 11 November 2017 - PM**

Judge: Mrs Margaret Burgoine (NSW)

### **Critiques**

#### BULL TERRIER

21 – nice young pup, showed OK.

#### *Minor puppy dog*

23 – slight mouth fault, adequate bone and movement is OK, a nice young dog. (Second)

24 – good head with a piercing eye, excellent bone but poor movement and straight in rear. (Third)

25 – an upstanding dog with excellent bone, a fair head with well-placed ears, a slight mouth fault. (First)

#### *Puppy dog*

27 – this boy has a good head and mouth but presently has ears down. He has good bone but his movement was very loose in front.

#### *Junior dog*

28 – superbly placed eyes with piercing expression, ears on top of head and correctly placed, good forechest, would prefer more bone. (First)

29 – a pleasing head and good neck, needs to mature, would prefer more substance. (Second)

#### *Intermediate dog*

32 – a 2.5 year old, this male is all dog! Excellent bone and substance, a lovely forechest and a good head. Moved well. (First)

30 – head is ok with a beautiful eye, very good bone, more of a terrier type, would prefer more substance. (Second)

#### *Open dog*

33 – an adequate head, quite a gay tail and a sloping topline. (Third)

35 – a substantial dog with a good head, adequate bone, carried tail high. (First)

36 – substantial dog with a reasonable head and a strong, firm body. (Second)

DCC – 32, RDCC – 30

*Baby puppy bitch*

?? – good bone and nice forequarters, an adequate chest, should mature well.

*Puppy bitch*

39 – adequate bone and a good shape, but short in foreface with a mouth fault, still had a nice expression.

*Junior bitch*

40 – maturing well, good body shape and forechest, enough bone and a clean head. (First)

41 – adequate bone and fair quarters, a clean head but lacking forechest. (Second)

42 – a solid bitch with decent bone and a nice dark eye but not well behaved, needs to mature. (Third)

*Intermediate bitch*

45 – adequate bone and a nice head, ticking not desirable and needs training, hard to assess due to behaviour. (Third)

46 – very feminine bitch with an excellent eye, very good outline, plenty of bone, a terrier type. (First)

49 – good body, movement is a little loose in front, difficult to assess due to behaviour, needs training. (Second)

*Australian Bred bitch*

50 – Good forechest and body, slightly straight in stifle, lovely expression. (First)

51 – brindle and white with a nice head and straight front, would prefer more depth of underjaw and more substance all over. (Second)

*Open bitch*

53 – a well-balanced bitch with a nice head and good shoulders, adequate bone. (First)

54 – good forechest and head with nice depth of underjaw, enough bone. (Second)

55 – a pretty head and adequate bone but very low stationed, was told she has recently had pups. (Third)

BCC – 46, RBCC – 49

BOB – 32, ruBOB – 30
