

THE RECALL

BENDIGO OBEDIENCE DOG CLUB NEWSLETTER OCTOBER 2018 “CELEBRATING 55 YEARS”

VALE Pauline Kavanagh

At the beginning of Term 2, 19th April 2017, Pauline joined our Beginner Class with her much loved dog, Maggie. Right from the start Pauline wanted to be involved in everything, to learn lots of things that they could enjoy together. Pauline and Maggie enjoyed all aspects of Dog Club; from the walks around the lake, our Cafe day and even our "cuppa" after classes. There was a true sense of belonging even before she became a Committee Member at our AGM in March this year and with purchasing some club uniform, so she could be "part of the gang."

It is with great sadness that I announce that Pauline passed away early on the morning of Thursday, 4th October 2018 after a recent diagnosis.

Pauline's main concern was that Maggie be cared for and to be able to enjoy all the fun things she had planned. At this stage Maggie is in the care of Meredith. Rest in Peace Pauline. We will miss you. Sandra Price

Reminders:

***Club Phone:** We now have a club mobile phone. Call 0497 242 667 for all queries.

***Signing prior to class:** it is essential for safety and insurance reasons we know who is in class. Please ensure you sign in prior to starting class each session. This also helps us keep track of people's attendance and those eligible for graduation.

***Mobile Phones:** Please refrain from using your mobile phone in class. If you are expecting an important call, please inform your instructor and if the call occurs, remove yourself from the class prior to answering. Check with the instructor prior to re-joining the class so you are aware of what is happening within the class.

***Footwear:** For safety reasons, please ensure you are wearing sturdy, closed in footwear at all times. Thongs and high heels are not appropriate and unsafe for class and you may be asked not to take part for your own safety.

***Parking:** Please use common sense when parking. Parking behind the clubhouse is restricted to committee members and instructors. Please keep roadways clear to ensure ease of access for all using the carpark. You will need to park on the road if the carpark is full.

***Training in the cooler weather:** Take advantage of the cooler weather and increase the amount of training and exercise you are doing with your dog. You and your dog will only progress if you work throughout the week to consolidate what you have learnt in class.

***Give Me Space:** Please remember to give other members and their dogs who are wearing a yellow high-vis vest space before and after class as well as during training. Please show your respect and support for these handlers by following this as they work hard to help their dogs overcome their barriers.

***Dogs on lead at all times** unless instructed to be off lead by an instructor. Off lead play before or after class needs to occur on the tennis courts or in the puppy pens. While your dog may be okay, it may be causing stress or over excitement for other dogs or be an unnecessary distraction for people who are still working with their dogs.

Can my Dog eat that?

Many of us feed our dogs scraps or food from the table. Whilst in many instances this is fine we all need to be aware that dog stomachs are designed to digest different food to us. Some foods are dangerous and possible deadly to dogs.

Macadamia Nuts

Raw and roasted macadamia nuts can be a danger of for pets. The toxic compound is unknown, but the effect of macadamia nuts is to cause locomotory difficulties. Dogs develop a tremor of the skeletal muscles, and weakness or paralysis of the hindquarters. Affected dogs are often unable to rise and are distressed, usually panting. Some affected dogs have swollen limbs and show pain when the limbs are manipulated.

Dogs have been affected by eating as few as six macadamia kernels (nuts without the shell) while others had eaten approximately forty kernels. Some effected dogs have also been given macadamia butter.

Cooked Bones

Cooked bones - they can splinter and cause gut perforation, as well as blockages in the intestine, tooth fractures, and cooked chop bones can get stuck across the roof of the mouth.
