| <p><u>Junior Dog</u> CH Enguila Bully Callonett Owner D & A Newman</p>  | <p>Jessica Kada: 1st 15mth old white balanced male of good type. Filled up head, gentle profile with slightly raised brow, good expression and good ear placement. Mouth in scissor with two, lower in standing canines. Short back, strong round bone, tight feet, good spring of rib, lacks a little angulation in the hind, reflected in his movement today.</p> <p>Nikki Zulu: 1st 13 month old white male, very nice make and shape, good bone for age. Excellent profile & good fill, small eye and ear giving wicked expression. Instanding canines. Good reach of neck, well place shoulders, good topline , short in back, would prefer a lower tail set, in excellent condition very well muscled. Moves well coming and going.</p> <p>Kerry Hellsten: 1st - a young male in good condition for his age. Head has fill and correctly placed ears, however, expression is slightly kind. Quality bone right down to his tight feet and angulation front and rear matched, would prefer more angulation in stifle. Short in back, tail set was slightly low and carriage was a little high.</p> |
| <p><u>Inter Dog</u> Boromir Gothic Fate At Brasshead Imp NZ Owner Brasshead Kennels</p>  | <p>Jessica Kada: 2nd - 21mth old brindle and white male of good type and balanced proportions. His head is long with an unbroken profile, good depth of muzzle and just enough finish. Mouth correct. His ears are set a little low. He is up on the leg, standing square, his body is well balanced with a straight front, good round bone and tight feet. He has a well laid shoulder, good spring of rib, slightly straight in the hind. Ideally would like to see him a little heavier. He moves a little close behind and was a little lacklustre on the move, not showing himself to his best today. Handled well.</p> <p>Nikki Zulu: 3rd 21 month old brindle and white male, another quality dog. Not quite the substance of the other dogs in the class but still nice in outline. Profile good , with good fill . A bit of a kinder eye and would prefer a higher set ear to give a better expression. Good reach in neck, slight rise in topline, short in body, good set tail, moved well around the ring. He just wasn't feeling it today seemed a little flat.</p> <p>Kerry Hellsten: Absent</p> |

Notes From Kerry Hellsten -

I would like to thank the Bull Terrier Club of Victoria, the Committee, their Members and the Exhibitors for the invitation to judge and the opportunity to judge at your show. To the Exhibitors, thank you for accepting my decisions and I sincerely appreciate your entries. Also thank you to the club for my gift. Whilst the entry numbers were not high, the quality of dogs was very good and in most cases mouths were correct.

Class 5 - First a comment for this class. Both of these dogs were excellent examples of the breed and by far this was a hard class to judge (besides baby puppy bitches). Thank you to both exhibitors for accepting my decision on the day. It was a pleasure to go over all of the dogs that I judged; however, these two males were harder to separate, eventually going Best in Show and Runner Up in Show.

Class 1a - A baby puppy class is always hard to judge. I enjoy seeing pups have a good time in the ring and to see their personalities shine. Placing them can be a challenge as they can often be quite different and be at varying growth stages, depending on their age. Once again thank you for accepting my decisions on the day.

Thank you once again to the club for my appointment and to all of the exhibitors for their entries on the day. I always enjoy an opportunity to judge lovely dogs and see the exhibitors.
