- 1** **1st - MYOWN MAN OF STEEL** - 6100130646 DOB: 28/06/2021 - Exh: G L BALL
Sire: Modadobe Valyrian Steel (AI) Dam: Ch Myown Get This Party Started

Four month old black and rust male baby puppy. Very well balanced and good size, with good bone and substance for his age. Very nice head with good planes and strong muzzle, dark eye and correct ear set. Good neck which flows smoothly into forequarters which are well angulated, as is his hindquarters, giving him a very well balanced appearance, nice tight feet. Moved very well for one so young and shows a great deal of promise.

- 2** **3rd - DOBREGAL TOP GUN** - 6100130963 DOB: 29/07/2021 – Exh: G Jones
Sire: Dobregal Bad Boy (AI) Dam: Dobregal Queen Of Sheba

Three month old brown and rust male baby puppy. Good size with good bone and substance and well balanced at this stage. Head is a bit heavy but in keeping with his body and he has a pleasing expression although his ears are a little large. Front and rear angulation is balanced, good tail set and good feet. Top-line was roaching which I put down to him being a little anxious.

- 3** **2nd - DOBREGAL BLUE VALENTINE** – 6100130964 DOB: 29/07/2021 – Exh: G Jones
Sire: Dobregal Bad Boy (AI) Dam: Dobregal Queen Of Sheba

Three month old brown and rust male baby puppy. Balanced, good size with good strong bone and substance for his age. Head is strong and in proportion to his body, strong muzzle, dark eye and good ear set. Neck is strong, forequarters are well angled at this stage, top-line and tail set were a little difficult to assess as he was a little anxious and not carrying himself very well. Hindquarters are balanced with forequarters at this stage. Unable to assess his movement. Another puppy who shows promise.

Class 3 Puppy Dog (2 Entries)

- 4** **1st - DOBREGAL BAD BAD LEROY BROWN (AI)** - 6100127482 DOB: 20/01/2021 – Exh: J Bovell
Sire: Pride Of Russia Major (Imp Russia) Dam: Dobregal Queen Of Sheba

Nine and half month old Brown and rust male, square, medium size with good strong bone, however I would prefer a little more elegance. His head is strong but in proportion to his body, although a bit too heavy for me, dark brown eye, good ear set, correct dentition. I would prefer more front and rear angulation however he is balanced front and rear. Level top-line with correct tail set, and a strong deep chest. Although overall quality was evident, I was unable to assess this puppy on the move despite several attempts and therefore unable to comment on his movement.

- 5** **2nd - DOBREGAL BACK IN BLACK (AI)** – 6100127487 DOB: 20/01/2021 – Exh: G Jones
Sire: Pride Of Russia Major Dam: Dobregal Queen Of Sheba

Nine and half month old Black and rust male, strongly built medium sized, again I would prefer a bit more elegance. Head is strong and in proportion to his body, ears set correct, dark eye and correct dentition. Neck flows well into shoulders however I would prefer more front angulation and more chest on this puppy, also lacking rear angulation, tail set is a little high for my preference. Lacks both reach and drive on the move due mainly to his lack of front and rear angulation.

Sire: Pride Of Russia Major Dam: Dobregal Queen Of Hearts

*Eleven month old black and rust male, square medium sized dog with strong heavy bone, I would prefer a little less. Head is strong and in proportion to body, planes are adequate, dark eye, correct ear set and correct dentition. Neck is a little on the short side and he could have better angulation in front with better lay of shoulder. Top-line level however his tail set is high. Lacks hind angulation, very good feet. Correct coat with good colour. On the move he lacks reach and drive however I was unable to adequately assess the movement on this dog due to his handler not presenting him at his best. **GRADING - GOOD***

- 7** **1st - AEGIS ROLLS ROYCE PHANTOM** - 6100121614 DOB: 18/02/2020 Exh: Mrs D A Ball
Sire: Ch Aegis The Night Manager (Ai) Dam: Aegis Days Of Future Past (Ai)

Nineteen month old fawn and rust male, elegant square dog however slightly unbalanced overall. This dog has an excellent head piece, long and correct blunt wedge with great expression, correct eye, correct ears, and correct dentition. Long neck which flows well into shoulder, however he is upright in shoulder and upper arm resulting in a straight front, he is straight in pasterns. He has a very good top-line and correct tail set although he is a little over angulated in the rear, which spoils overall balance of the dog. Excellent feet, good coat colour and condition. Moves well considering his straight front, however he is restricted in his front on the move.

GRADING: VERY GOOD

- 8** **3rd - DOBREGAL YOU GOT IT (AI)** - 6100055046 DOB: 9/04/2020 Exh: Graeme Jones
Sire: Pride Of Russia Major (Imp Rus) Dam: Dobregal Brown Sugar

Eighteen month old Brown and rust male, square medium size dog with good bone. Head is in proportion to body however his head planes are not parallel, dark eye, correct ear set and correct dentition. Neck is on the shorter side, front angulation is a little straight, has a level top-line with good tail set. Hindquarters could do with a little more angulation and length of stifle. He is restricted in both front and rear movement but again this was difficult to assess due to his inexperienced handler.

GRADING: GOOD

- 9** **2nd - DOBREGAL CONQUISTADOR (AI)** - 6100122165 DOB: 9/04/2020 Exh: Miss S Varrone
Sire: Pride Of Russia Major (Imp Rus) Dam: Dobregal Brown Sugar

Eighteen month old black and rust male, square, heavy dog with strong heavy bone. Head is also strong and heavy but in keeping with his body, a little too broad in back skull for me, dark eye, correct ear set and correct dentition. Neck is moderate and flows into moderately angulated shoulders. He has a good top-line and tail set, moderately angulated in rear and I would prefer a little more length in stifle. He moved well when I was able to assess, however due to the apparent inexperience of the handler the dog was not presented at his best which made it difficult to judge him.

Sire: Ch Aegis The Night Manager (AI) Dam: Aegis Je Suis A Rock Star

Three year old black and rust male of very good breed type. Square dog, medium size with good bone and is well balanced. Very good head with excellent planes, dark eye, correct ear set and correct dentition. Moderate neck flows smoothly into shoulders however I would prefer a little more front angulation. He has good level top-line, although I would prefer him a little bit shorter in loin he is quite acceptable, hindquarters moderately angulated and he has correct tail set, he has very good feet. Moves well with reach and drive and is well balanced.

GRADING: VERY GOOD

- 11** **2nd - DOBREGAL VLADIMYR THE IMPALER (AI)** - 6100127147 DOB: 6/01/2021 Exh: S Seth & V Adnani
Sire: Pride Of Russia Major (Imp Russia) Dam: Dobregal Queen Of Hearts

Eleven month old black and rust male, medium sized but solid dog, with strong heavy bone and slightly unbalanced. Heavy headed dog with muzzle a little too short and although it is in proportion to his body, he is a little too heavy for my preference, nice dark eye, correct ears and correct dentition. Neck is heavy and a little too short, front angulation is moderate, he has a good level top-line however tail set is too high and he is a little too straight in the rear than I would prefer, very good feet. Unfortunately, this dog was a little too immature for this class, plus handling and his misbehaviour did not allow adequate assessment.

Sire: Am Gr Ch Element Rock Star Dam: Aust Ch Aegis Grace Slick

Three year old Brown and rust male of excellent breed type. Medium size, square, good bone, well balanced and very well presented. This dog has a very well-balanced head with great expression, he has excellent planes, strong underjaw, nice dark eye, correct ear set and correct dentition. Neck is of moderate length and slightly arched and flows smoothly into well angulated and smooth shoulders, he has a correct level top-line and correct tail set. Hindquarters are moderately angulated and strong, although I would prefer a little more length in stifle and stronger second thigh it did not detract from the overall quality of this dog. Presentation, coat condition and colour are all excellent, moved very well with good reach and drive and he maintained a well-balanced appearance on the move. I was delighted to award this dog Challenge and Best in Show.

Sire: Am Gr Ch Element Rock Star Dam: Aust Ch Aegis Grace Slick

Three year old Black and rust male of good breed type. Medium size, strong bone although slightly heavier than I would prefer. Head is in proportion to his body, good expression, good planes, dark eye, correct ear set and correct dentition. Neck is moderate in length and flows smoothly into well angulated forequarters, I would prefer a stronger top-line and he is a little too long in loin than I prefer. Hindquarters are very well angulated and maybe slightly unbalanced with forequarters but overall still good. Movement was a little loose and his top-line a little soft on the move.

Sire: Ch. Fenix De Akido San (Imp Arg) Dam: Ch. Coppertop Wot A Pitcha Cd. Td. Et.

Eight and half year old black and rust male of excellent breed type who belied his years. Elegant, square, medium size dog with good bone, well balanced and very well presented. His head is well balanced and in proportion to his body, good length of muzzle, very good planes, underjaw could be a tiny bit stronger, nice dark eye, correct ear set, correct dentition, and excellent expression. Good length of neck which flows smoothly into well angulated forequarters, deep brisket and smooth fore chest, level top-line which he maintained when he moved despite his age, correct tail set, his hindquarters are well angulated. Coat condition, colour and presentation were all excellent. Moved with reach and drive however he began to tire as the class progressed and he was unable to maintain the vigour and elasticity required. It was an absolute pleasure to award this dog Reserve Challenge and Runner Up Best in Show.

Sire: Am. Ch. Arg. Gr. Ch. Chil. Ch. Int Ch. Latin Am. Ch. Mex Ch. Nello's Lex Luthor (Arg) Dam: Valkyrian Rocks Hawaii

Three year old black and rust male of good breed type. Medium size, good bone, square although could be a little better balanced. Head is in proportion to his body, planes are correct, good expression, correct eye shape and eye colour, good ear set and correct dentition. Neck is moderate in length and flows smoothly into shoulders, I would prefer a little more angulation in his forequarter, top-line is level although it does slope a little bit steeper than I would prefer, tail set a little low. Hindquarters are well angulated which creates a slight unbalanced appearance with his front however still a nice dog overall, good feet. On the move, he is slightly restricted in front however drive is adequate.

Three year old Black and rust male. Medium size, good bone and well balanced. His head is a little shorter in muzzle than I prefer and does lack fill under the eyes, eye is dark but not correct shape, ear set is OK and correct dentition. Neck is a little shorter than I prefer, forequarters could be slightly better angulated, top-line is level and tail set is correct. Hindquarter angulation is adequate. Movement lacked adequate reach and drive.

Sire: Modadobe Valyrian Steel (Ai) Dam: Ch Myown Get This Party Started

Four month old black and rust female baby puppy. Very nice breed type, square outline, feminine with good bone and very well balanced for her age. Very nice head with good expression, good fill under her eyes, dark eye and good ear set. Neck into shoulder is very smooth with good front and rear angulation, level top-line, correct tail set and good feet. Moved well although a tiny bit wide which is likely due to her age. A very promising puppy.

- 19** **2nd - VALKYRIAN VIOLET BROOK** - 6100130539 DOB: 11/06/2021 EXH: VALKYRIAN DOBERMANNS
Sire: Valkyrian Luthor Corp (Imp Usa) Dam: Ch Valkyrian Annie Brook Td

Five month old black and rust female baby puppy. Nice puppy with good breed type, balanced, square and has good bone. This puppy has good expression although not quite as strong in head as first placed puppy. Front and rear angulation is good, level top-line and correct tail set, good feet. Moved well.

Thirteen month old brown and rust female. Good breed type, square and very well balanced. Head is good however planes could be slightly better, and I would like a little more underjaw, dark eye, correct ear set and full dentition. Neck into shoulder flows smoothly, front angulation is good, top-line is level and tail set is correct, hindquarter is well angulated, a little leggy but well balanced overall. Moves very well with good reach and drive.

12 month old brown and rust female. Good breed type, square, balanced and good bone. Head is very good with very good planes, good expression, dark eye, correct ear set and full dentition. Neck into shoulder is a little abrupt and I would prefer a smoother transition into shoulders, front angulation is adequate, top-line is level, tail set is a little high, hindquarters angulation is well balanced with front. Colour is very rich dark brown. Movement is a little restricted in front however overall is satisfactory.

Sire: Pride Of Russia Major (Imp Rus) Dam: Dobregal Brown Sugar

Eighteen month brown and rust female. Good breed type, although a little heavier in bone than first placed bitch she is balanced. Head is satisfactory and in proportion to her body, a little broad in back skull, and a little short in muzzle, dark eye and correct ear set, correct dentition. Neck is adequate and flows smoothly into shoulders, I would prefer better front angulation however it is adequate, top-line is level and tail set is a little low, hindquarters could be better angulated however balanced with forequarter, good feet. Moved well eventually although she was not particularly compliant, and handler was inexperienced and did not present her at her best.

Sixteen month old black and rust female. Very good breed type, feminine, still a little immature but elegant and square, and presents a very nice outline, she has good bone and is well balanced. Head is good with good planes and strong underjaw, she has dark eye, correct ear set and correct dentition, she has very good expression. Good length of neck which flows smoothly into shoulders, good front angulation and good depth of chest, level top-line and correct tail set. She has very good hindquarter angulation and presents a well balanced outline, good feet. Good coat, good condition and very well presented. On the move she toes in very slightly when she comes towards you however, she moved very well with good reach and drive. I was impressed with this young bitch and pleased to award her Challenge.
