

German Shepherd Dog Club of Tasmania Inc.
AM Championship Specialty Show Sunday - 14th February, 2021
Judge – Miss Jessica Kada

Firstly I would like to thank the GSDCT for the invitation to judge their AM Championship Show. It was my first time to Tasmania, and I had a lovely time. The hospitality I received from the committee and its members was lovely and I felt very welcome from the time I landed. I had the pleasure of attending the survey and assisting Mr Vince Tantaró on the day prior to the show, which was great to be involved with, thank you Vince.

The weather could not have been better, we were very spoilt. A little cool in the morning and it became a little warmer as the day went on. Not too hot for the dogs or their handlers!

I wish to sincerely thank my steward, for keeping the ring running smoothly, she was lovely to work with and ensured I was well catered for at all times.

A special mention and thank you to Zac Munnings, the club show secretary, who patiently worked with me to organise my travel and accommodation especially considering the current COVID times we find ourselves in. He also stepped in as my stenographer on the day, and for his first time he did a great job.

The show attracted an entry of 29 with 23 being exhibited and critiques were required to be given for all classes. Unfortunately, due to the Victorian snap lockdown on the Friday night prior to the show, some Victorians were unable to attend as planned.

Overall, I was very impressed with the size of the exhibits within the entry, the majority of dogs sat within the large to very large category, however there were also a number of animals measuring medium to above medium size. I was fortunate enough to judge some lovely animals on the day, and we had some good size older classes given the overall entry, in particular the SC Open Dog and Open Bitch classes. As a general, the forequarter length and lay issues were common. I did however find generally there was a good definition between sexes.

Unfortunately, as class numbers were generally small an overall summation of the show in any further detail is difficult.
