Involvement with Bull Terriers began in 1964 after my parents emigrated from Scotland & purchased their 1st Bully, a red / white male, due to a country work transfer “SPIKE” was sadly rehomed, returning to Adelaide two years later - “MINNIE” (Mhlope Minerva) was purchased, she quickly became a champion & was Maolmhin's foundation bitch.

I started as a child handler, then showing, breeding & judging. In 2006 I was invited & became an accredited Assessor / Examiner / Mentor in the Judges Training system. In 2008 I became an ANKC / FCI International All Breeds Judge & in 2017 I was honoured when asked to be the Coordinator for the Terrier Group Judges Training.

In 1976, along with my parents were founding members of the Bull Terrier Club of South Australia INC. & over the years I held various Executive & Committee positions, I held the position of Club Secretary for many many years, where I was involved in putting together numerous Club Championship Shows, National Specialty & Biennial Trophy Shows. In 2002 I received Life Membership.

For over forty years now I have successfully bred & exhibited Bullies & in 2005 I introduced Bull Terriers [MINIATURE] to my “Maolmhin” prefix. My small select kennel has been very successful ~ bred / owned Ormandy Box (Dog) & Ormandy Box (Bitch) winners, multiple Speciality winners, including Best Exhibit in Show at the Bi-Ennial Trophy Show & National Specialty.

I was Australia's Correspondent for a UK based Bull Terrier Magazine. I have had the honour & privilege of judging Breed Specialties in Scotland, Canberra, New South Wales, Victoria & Western Australia as well as Breed Support Shows in Queensland & Tasmania. Judging assignments have taken me to South Africa & New Zealand. Have attended many famous shows – Crufts, South Africa's Supreme, UK Trophies & Silverwood, where I have had opportunity to handle some wonderful breed representatives, as well as meeting & spending time with highly respected Breeders.

A proud BREEDER / OWNER of 7 ROMs, 6 Grands, 3 Supremes & 60 Champions
