8. **Agenda Items**

1. The BTCV would like a discussion point added to the NBTC A AGM agenda. "Dogs Victoria have announced that they are looking to introduce mandatory DNA parentage testing in Victoria with Orivet as their proposed supplier. The BTCV are seeking feedback on breeder and club experiences with Orivet, particularly with regards to accuracy and timeliness of results.

2. The BTCV would like the 5th BT Book placed on the agenda, can there be a timeframe placed on the production to help Clubs set expectations and plan accordingly.

3. BTC SA – Book update

4. The BTCV would like to request that the current Health Officer follow up George from Orivet on the development of a DNA heart test for bull terriers and provide an update. For context, the previous NBTC A Health Officer (Chris Cook) made contact with George from Orivet to enquire if a DNA test for Bull Terrier heart problems could be developed. The initial enquiries were positive and George requested samples from affected and non-affected animals to begin research, which he was supplied with and still has.
