What an absolute pleasure to be given the opportunity to Judge the Staffordshire Bull Terrier Show of Victoria, I must say it seemed like for ever to arrive with covid delaying us the opportunity to do the things we love. Finally, the day arrived and what a splendid time I had judging all your much loved Staffords.

I was humbled by the entry and thank each and everyone of you for your support, I am sure you will all join me in thanking the club and agree in saying they put on an outstanding week-end, their commitment and hard work is much to be admired.

The trophy table was amazing, the atmosphere was fabulous, and the sportsmanship was fully admiral.

Thank you again for allowing me the opportunity.

After nearly two years without regular Specialty shows, it was fantastic to get back into the Specialty ring, albeit this time as a judge. I would like to thank the Club for the honour of being invited to judge their 60th Anniversary show and a sincere thank you to the exhibitors for your entry.

A HUGE congratulations to the Club for what can only be described as a magnificent trophy table, it was certainly a site to behold. As usual the Victorian club has set a high bar for the rest of the clubs to emulate. Thank you for my lovely Judging Gifts.

I found the overall entry to be of quality. It was encouraging to see so many promising youngsters, this augers well for the breeds future. Some of the classes were hard fought and decisions difficult, causing me to nit pick in a few instances. I was especially pleased with my bitch class winners, standing back and looking at the Challenge lineup was certainly a pleasure. Whilst my Best In Show winner was a dog – the consistency was with the bitches and my Class In Show winners reflected this.

It was pleasing to note that most of the exhibits had good open nostrils, I did not see any nares you would consider pinched, causing breathing issues. Also pleasing is that I saw very few mouth faults.

Not every exhibit can be a Best In Show winner but there are things within your control, that can make your dog more appealing to the judge. Trimming your dogs nails, there were a number of exhibits with long nails, which affected their feet and if too long, their movement - the indoor ring at KCC Park is very unforgiving if your dog has long nails. Also ensuring your dog has clean teeth. Fitness seemed to be lacking in some exhibits, moreso than at other Specialties I have been to. Although not overweight, some were soft and lacked muscle tone. It probably has not been as easy to keep dogs in condition, with lock downs and the motivation lacking, having had no Specialty Shows.

Any day you get to judge your breed is a good day, thank you to the exhibitors for accepting my decisions in a sporting manner, I very much enjoyed this appointment.

Delighted to be invited to judge for this prestigious Australian Club, with such an enviable history.

I really enjoyed the day, great venue, impressive trophy table and hard-working committee set the bar as to how to cater for a great event, nothing was left out, every detail catered for.

Congratulations must go to the committee, outstanding, a truly thankless job, but highly rewarding.

I'd like to thank the exhibitors, many my peers, for your entries and for valuing my opinion, also my decisions, thank you, for allowing me the privilege of giving you all my opinion, not always popular, but honest, and how I see it. The general vibe of the day was pleasant, and great to see, sportsmanship alive and well, with plenty of encouragement and cheering for winners.

My steward Phillip, along with his lovely wife, they did a superb job, kept the ring moving, and functioning well.

And lastly but most importantly the dogs, I was very pleased with the winners I found, they could compare easily with many other lovely dogs I had the pleasure of putting my hands on in the past, they, in my opinion, will ensure the breed stays healthy, has good direction, and has a promising future here in Australia.

Mouths were on a whole, pleasing with only a couple of exhibits with dentition problems. Fitness /condition could be improved as a whole, with not many hard to the touch, some waistlines were non-existent. These dogs that once were warriors, these days spend a lot of time on the couch, in a family environment, so easy to see how they can lose condition, however, a fit Stafford is a mentally stable, healthy dog, and a joy to be around.

Feet needed attention on some exhibits, a good manicure and more exercise, and a look at diet for coat condition, this is a beauty pageant, and the smallest details (feet, nails, tail trims, clean coats, clean teeth) don't go unnoticed, and complete the picture overall.

I wish this club, all the success in the future, with the dedication and commitment from its committee and members will only go from strength to strength.

I encourage anyone invited to judge, to take the opportunity, a truly memorable experience.

Thank you for your Invitation.

Yours In Staffords

Jodie Sing

<p><b>Baby dog (4,1)</b> <b>ANVILHART MY BRO THE GIGOLO</b> Black Brindle with white baby. With pleasing head shape for age, dark round eyes, ears neat, correctly set on the head. Mouth still changing, new teeth erupting. Alert expression, clean skull, straight front with good pasterns. Topline is kept on the move, although at this age typically they are loose and floppy when moving this little guy had it all together. Happy baby, with plenty of potential.</p>	<p><b>Baby bitch (11,0 )</b> A delightful class, that was one of the harder classes of the day to pick from, the first three places was a hard decision as they could swap places on any given day. **BORSTAFF JACK NONE REACHER**

Strikingly Marked Brindle and White Puppy. Another lovely puppy with plenty of potential, more substance than first place, just preferred overall profile of first puppy. Pleasing head shape and development at this stage, deep through skull, dark round eyes and small, neat rose ears finished the picture. He has plenty of brisket that filled the hand on inspection, is short coupled and has decent angulation, a tad nervous and a bit of a handful for his handler, but this will disappear with age and experience long with the persistence and patience his handler displayed, he will settle and get on with it.

**USHERIN STEADY ON TEDDY**

White with Black head markings. Clean headed baby with dark pigmentation, dark round eyes, mouth still changing, ears a little flighty but set well on head and could be due to teething so could settle. Correct length of neck into level topline, he kept whilst moving. Straight front, hoping for depth and width with maturity, plenty of bone for his size so far, level topline, and tail set on correctly, would like more angulation in rear.

blunt muzzle, tight lips, scissor bite, she has a pair of neat thin leathered rose ears that frame her head, wicked expression, plenty of underjaw for one so young. Straight front, plenty of bone for size, and depth of brisket that filled your hand. She is right where she should be as far as development for her age, a really nice puppy, good luck with her future.

**STEPPENWOLF IM BAD ITS WOT IDO**

Brindle Puppy  
Litter sister to first place, could have swapped places on any day, another lovely feminine baby, with plenty of virtues, she has an appealing head and expression with plenty of breed type, round dark eyes, neat pair of rose ears, clean muzzle of good proportions, has a tidy straight well boned front, and neat feet, black nails. A smaller puppy than her sister but undeniable quality, kept her top line when moving along. Correct tail set, breeder should be proud of breeding such a lovely pair of puppies, congrats.

**JONTHILL BUCKLE UP BUTTERCUP (AI)**

Red /Black Mask.  
Another promising puppy, clean headed with appealing expression finished off with her round dark eyes, all I would want in a puppy this age, could swap places with first two at any time. She has a glorious deep rich red coat, straight front and neatest of feet with black nails. Level top line and short coupled, her tail set is correct, and she moved along better than some mature dogs. She enjoyed her time out there, her handler got the best from her .

A class I really enjoyed and could have took any of these babies home in my bag and been a winner myself.

Scissor bite. She has ample bone for her frame. Spring of rib with good tuck up, dark pigmentation, tightly padded feet, once settled could see she moved well and had a level top line. Turned out

**ANVILHART CAN HARDLY WAIT**

Brindle puppy. Plenty of leg, larger all over than first place, plenty of virtues, head of decent proportions and free of exaggerations, broad muzzle, scissor bite, ears thin and set well on the head could settle more, time will tell. He has width in his front, with ample bone, hoping maturity will see more depth of brisket, which at this stage affected the overall appearance of his front, neat feet, dark nails, level topline, and plenty of depth through his hindquarters, coat short and close, he worked well with his handler.

**LEKSTON AHEAD OF THE TIMES**

Brindle dog Smaller more compact puppy than first two, balanced for size, punishing head shape, deep through, plenty of width and depth, abundance of underjaw. Fleshier around the foreface than I like but it didn't detract from his keen expression. Dark eyes, scissor bite, short neck into decent front, topline level, neat well-padded feet. Generous spring of rib would like more depth through hindquarters.

KIMBASTAFF CREATING KAOS

in lovely condition. Short gleaming coat. Another one I will watch with interest.

**LEKSTON PRETTY AS A PICTURE**

Brindle / White  
More substance than first place, deep through head of good proportions, wide underjaw, dark eyes, blunt clean muzzle, neat set of ears, ample width in front, and plenty of brisket. She has a muscular set of hindquarters, parallel hocks, she kept her top line whilst on the move. Handled Well.

**TIAMOSTAFF ARABIAN NIGHT**

Black Brindle /White  
This puppy has a pleasing head shape of correct proportions with width and depth through skull, blunt clean muzzle housing a correct scissor bite. Her eyes are round, would prefer darker, ears are thin and placed a little high on the head and untidy. Short muscular neck into a straight front with width, would like more depth of brisket. Ample bone. She has a level top line and a muscular set of hindquarters, tail set correct. Handled well.

**WOOLOOSTAFF DEVILS UNDENIABLE**

Black Brindle Puppy. Immediately caught my eye. My notes say "impressive".  
A punishing headpiece displayed on this puppy, almost criminal for one so young. He has the typical Stafford expression, round dark eyes that he watches you with a quiet challenge as not to ignore him, neat thin rose ears frame his head to finish off the picture, it is dog on the day for me, however I am excited to see what a gift maturity will be with this belter. He has plenty of underjaw housing a correct scissor bite, and blunt muzzle. Darkest of pigmentation, Short muscular neck into well boned wide front, with plenty of brisket and engine room with his spring of rib, ample tuck up, his hindquarters already display deep well-developed muscled hams with second thigh apparent, they are also sufficiently angulated, well let down hocks propel him along with economy of effort, tail set is correct and carried well.

As his name states you cannot deny him, could have taken him home, he pushed hard for the CC, just lost out on maturity, he will have a

Bitch of standard size, clean outline, and pleasing profile. Her head is clean deep through, void of exaggerations. Dark round eyes, scissor bite. Thin leathered ears of medium size, that sit well on the head. Plenty of fill under the eyes. Typical expression. Straight well boned front, ample bone for frame, neat feet, black nails, and up on pasterns, although longer cast in body, she kept her topline on the move and had pleasing angles, when viewed from all angles. Moved with drive and purpose. A tidy package.

**WOOLOOSTAFF THE DEVILS LOOKING**

Black Brindle / White  
Really liked the look of this bitch, breed type in abundance. She was strong, yet retained femininity, has a soft expression, with round dark eyes, small, neat rose ears. Scissor bite. She has plenty of bone for her frame, and spring of rib, width in front, depth of brisket, that others would envy. Her powerful hindquarters are well angulated and muscular, and when her confidence returns she will

**BOLDHART THE DEVIL STRIKES BAK**

Black Brindle with White

Another puppy with an eye-catching headpiece, clean lipped with plenty of underjaw, scissor bite, dark round eye. Ear leathers thin and neatly folded, framed the head to give that typical expression. Nicely angled front and rear assembly, well boned legs and up on pasterns, neat tight feet. He is a tad long cast in loin but maintained top line when moving. Unfortunate to meet first place as another nice puppy.

**SWANKY MASTER OF MISCHIEF (AI)**

Three lovely puppies, another I liked, clean headed with a wicked expression, round eyes, would prefer darker. Ears thin and rose, well set on the skull finished it all off. Athletic dog void of exaggerations. Well defined, clean chiselled head of correct proportions. Eye shape round, eyes dark, scissor bite, ears rose and small and set higher on the head. Typical expression, wide nostrils, prominent masseter muscles developing. Has a straight front that with maturity will see more depth and ample bone for his frame. He was impressive to view from all angles, coat close, short, and gleaming, he is slightly longer cast but still maintains his top line whilst moving, when he settles, he holds his tail correctly, he moved like he loves being out there which is always nice to watch, has a great rapport with his handler.

**KOENDIDDA DOCTOR WHO (AI)**

Another with athletic appearance, he still maintained balance for his size. Tight close skinned clean dog with a head of correct proportions with a keen alert typical expression, eyes round, could be darker, pigmentation ok colour of coat considered, plenty of underjaw and clean lips, scissor bite. He has thin ears that sit correctly. Muscular

hopefully relax enough to enjoy her surroundings and show what she has too offer, a beauty that wasn't feeling it today but im sure her day will come, would love to have put her further up the line but temperament for me comes first and she wasn't happy today, she was just starting a season, I wish her breeder/handler luck in the future with her and hope she learns to love the ring and display her qualities.

**TIAMOSTAFF MOULIN ROUGE**

Beautiful feminine clean head with plenty of muzzle and wide nostrils. Pronounced masseter muscles. Masculine. Standard sized dog , balanced from any angle, possessing substance so many exhibits are lacking these days. Eye-catching, possesses a strong well chiselled head, deep through with a distinct stop and strong muzzle, a bit fleshier than I'm used to however not coarse or exaggerated, neat rose ears sit well in place which he uses when alert to show off his lovely expression. Correct scissor bite. Dark round eyes, straight well boned front, short coupled, level top line, which his back markings can be deceiving at a distance to give the illusion its not so level, but it is most certainly is, he holds it well when he is swaggering around the ring enjoying every second of it, a real joy to watch. He has thick muscular hindquarters that move parallel, well developed second thighs. He moves with confidence and would be impressive in any line up. Well handled.

Another one that caught my eye, she has a beautiful feminine head of correct proportions that is strong and appealing with round dark eyes and clean expression. Scissor Bite. Muscular short neck into wide front, is well boned for her size. Best of toplines that she kept on the move and well-defined muscular hindquarters that she used to drive her along. A real joy to watch. She is another that is right up my street, she would have been further up in the line at the end of the day, but her feet needed attention, which affected her front as she was a bit down in pasterns, and flat footed. Still couldn't deny her the class. Handled well.

**CH HANDPIKD THE DUCHESS**

Black Brindle/White bitch

With no exaggerations, clean head with plenty of muzzle, wide underjaw, dark pigmentation, round dark eyes, and neat rose ears she used when she alerted. Still very much a baby, this boys best friend will be maturity. Has the recipe already to develop into a lovely, finished dog. Standard sized, balanced, impressive profile, looks the part from any angle, has a pleasing head shape, neat ears, round dark eyes. Short muscular neck into a well ribbed, short, backed body with plenty of bone, straight front, with depth of brisket and spring of rib, level topline he maintains stacked or moving. He moved with confidence, has a great rapport with his handler. His coat is close and short, and shone, really liked him.

**LILROCK DOUBLE JEOPARDY**

Black Brindle dog

Plenty of breed type. With impressive head shape, blunt clean muzzle, eyes dark, with a typical keen expression, scissor bite, short neck into straight front, lacked prosternum and depth which affected the overall front on picture for me, but still had many virtues. He kept a good topline whilst moving tail carried a bit high, once settled moved along nicely for assessment, handled well.

**SWANKY GLORIOUS PURPOSE (AI)**

Pleasing profile and typical breed type on this 9-month-old boy, notes say "tidy package". Void of exaggerations has a clean chiselled head of correct proportions, free of wrinkle, eye shape round, just prefer darker, he has a straight well boned front, at this stage of development yet to develop width, maturity does wonder for our breed. Black Brindle puppy

Still has the onset of maturity too look forward too, she has a smashing head wide and deep with plenty of muzzle and wicked expression. Round dark eyes that were keen and alert taking everything in around her framed with a beautiful set of rose ears. She really catches your eye. Her body is still young and rangy, but her angles are good, and she has depth through her body, and ribcage, short coupled, top line is level, her hindquarters are muscular for this stage of development. Really impressed in profile. She was a bit naughty on the move, proving a handful for her owner, which made her hard to assess, saw enough to know she is sound. A real standout in the line-up, will watch this pretty girl and how she goes on in the future.

**JONTHILL WINNIE WILDFIRE**

**GRAYLEIGH TAKE IT TO THE LIMIT**

Eye-catching. What a lovely head this bitch has, clean, and unexaggerated, tight lips. Plenty of breed type. Round dark eyes that pierce through you. Her head proportions are correct. Neatest of ears, with thin leathers. Wide nostrils, dark pigmentation. Short muscular neck, straight front with plenty of bone, depth of brisket apparent from front view, neat tight feet, she is longer cast in body and has ample tuck up. I would prefer a stronger top line, as she lost this on the move, but this didn't hold her back in this class. Coat was close and shining, well presented. Another that worked well with her handler.

**BORSTAFF SHEZA FIREKRAKOUR**

Of excellent breed type, she has no exaggerations, tight clean skinned coat, she is in fit hard condition, hard too touch. Feminine head impressive in profile with appealing expression. Dark round eyes, scissor bite. She has ample bone for her frame and when settled has a level top line. Her handler works hard with her on the move and getting her to stand still to be assessed. She doesn't do herself any favours. But on that moment that you catch her alert and, on her toes, you cannot deny her quality. She has plenty of turn in her hindquarters that power her along. Another I really liked.

**CH HANDPIKD QUEEN OF DIAMONDS**

She has a well boned straight front, level top line and set of well angulated hindquarters with let-down hocks and correct tail set/carriage. She pushed hard for the class today but lost out of fitness, she was handled to her advantage and has an obvious rapport with her handler.
